

RENAL ESSENTIALS »

Astragalus, Rehmannia, L-Arginine, EPA and DHA, plus a synergistic blend of ingredients for maximum kidney support

Superior kidney support formula for optimal kidney function during times of stress.

Helps maintain proper kidney function by supporting:

- » Renal circulation
- » Immune and antioxidant defense system functions
- » Homocysteine balance
- » Normal fluid retention
- » Stress management
- » Kidney and liver function
- » Normal detoxification

Astragalus Root Powder is an adaptogen that supports immune function and kidney circulation.

Rehmannia is a Chinese herb traditionally used as a blood tonic and to support urine flow. It is said to be the “kidney’s own food.” It is an adaptogen that supports kidney circulation, as well as kidney and liver function.

Nettle (*Urtica dioica*) Seed Extract supports the immune system, circulation, normal detoxification functions, and balanced fluid retention.

Cordyceps Sinensis Extract is an adaptogen and antioxidant. It supports immune system function, energy production, removal of toxins, and kidney function.

Vitamin B1 is an antioxidant that supports efficient kidney circulation and the metabolism of fats, carbohydrates, and proteins for proper energy production.

Vitamin B2 is found in the largest concentrations in the liver, kidney, and heart. It is an antioxidant that supports metabolic activity for optimal energy production and the removal of unwanted materials from the kidneys. The B vitamins together may help reduce oxalate problems in the kidney and decrease fluid retention. B vitamins are water-soluble and are not properly recycled in times of kidney dysfunction, and supplementation may be required.

Folic Acid, DMG, Vitamin B2, Vitamin B12 and Vitamin B6 help to support circulation, methylation, and sulfuration pathways.

Potassium is important for mineral balance and water absorption.

L-arginine is an amino acid that supports kidney function and circulation.

Lecithin may help protect the kidneys from fatty build up.

Choline and Inositol are phospholipids that support reduced fluid retention.

DMG, EPA, and DHA support immune function, balance eicosanoid production, and support blood flow to the kidneys.

PRODUCT DETAILS:

Renal Essentials Feline is recommended to support and maintain proper kidney function and mineral balance.

DIRECTIONS FOR USE:

Cats: Give 4 chews daily.

Daily amount may be divided between AM & PM.

ACTIVE INGREDIENTS PER 2 CHEWS:

Astragalus Root Powder	30 mg
Rehmannia glutinosa (Root) Extract	25 mg
Nettle (<i>Urtica dioica</i>) Seed Extract	25 mg
Cordyceps sinensis Extract	25 mg
Lecithin	25 mg
L-Arginine	25 mg
N,N-Dimethylglycine HCl (DMG)	12.5 mg
Eicosapentaenoic Acid (EPA)	10.5 mg
Docosahexaenoic Acid (DHA)	7.2 mg
Potassium (K Citrate)	4.1 mg
Inositol	4 mg
Pyridoxine HCl (Vitamin B6)	4 mg
Thiamin (Vitamin B1)	2 mg
Riboflavin (Vitamin B2)	2 mg
Choline Chloride	2 mg
Folic Acid	90 mcg
Methylcobalamin (Vitamin B12)	27.5 mcg

Inactive Ingredients: arabic gum, brewers yeast, calcium sulfate, chicken liver flavor, citric acid, citrus pectin, fish oil concentrate, glycerin, maltodextrin, mixed tocopherols, oat flour, oat meal, propionic acid, rosemary extract, rye flour, silicon dioxide, sodium alginate, sorbic acid, soy lecithin, vegetable oil, water.
